Internship Program for
Reports and Data Analyst Role

Department of Sales, Product and Business Planning

Eligibility

Students pursuing degrees in:

- **Bachelor's Degree:**
  - Data Science
  - Statistics
  - Applied Mathematics
  - Computer Science
  - Information Technology
  - Business Analytics
  - Economics
  - Engineering (with data focus)

Internship Duration Options

- **300 Hours:** Approximately 7-8 weeks (15-20 hours per week).
- **600 Hours:** Approximately 15-16 weeks (15-20 hours per week).

Program Structure

Week 1: Orientation and Training

- **Objective:** Introduce the intern to the organization, tools, and basic processes.
- **Tasks:**
  - Company orientation: Mission, vision, values, and goals.
  - Overview of data systems and tools used (e.g., Excel, SQL, Python, Tableau, Power BI).
  - Training on company-specific data workflows and data privacy protocols.
  - Assign a mentor or supervisor.

Weeks 2-4: Data Collection and Cleaning

- **Objective:** Build foundational skills in data preparation.
- **Tasks:**
  - Collect data from primary (PICASO) and secondary sources (WEB ONLINE).
  - Use tools (Excel, SQL) for data extraction and management.
  - Exposure to different databases.
  - Exposure to different computer hardware and their use.
  - Learn and apply data cleaning techniques:
    - Handle missing or duplicate data.
    - Standardize formats and remove inconsistencies.
  - Document steps taken for reproducibility.

Weeks 5-7: Data Exploration and Analysis

(For 300-hour internship, this phase concludes the program)

- **Objective:** Perform exploratory data analysis (EDA) and generate insights.
- **Tasks:**
  - Create visualizations to summarize data (bar charts, histograms, scatter plots).
  - Use statistical methods to identify trends and anomalies.
  - Exposure to machine learning concepts, algorithms, techniques and applications
  - Work on sample projects like:
    - Sales trend analysis.
    - Customer segmentation based on demographics.
    - Performance evaluation of company initiatives.
  - Prepare reports or dashboards showcasing findings.

Weeks 8-12: Advanced Analysis and Visualization

(600-hour internship only)

- **Objective:** Conduct deeper analysis and gain proficiency in advanced tools.

- **Tasks:**
    - Write and optimize SQL queries for large datasets.
    - Use Python/R for predictive modeling and machine learning (optional based on skill level).
    - Build interactive dashboards using Power BI or Tableau.
    - Engage in case studies or simulations:
        - Predict customer churn.
        - Optimize marketing campaign performance.
        - Inventory forecasting.

Weeks 13-16: Capstone Project and Presentation

(600-hour internship only)

- **Objective:** Apply learnings in a real-world scenario.
- **Tasks:**
    - Work on a company-specific project (e.g., KPI reporting automation, predictive analytics).
    - Conduct data storytelling sessions to present findings to stakeholders.
    - Incorporate feedback from mentors and refine deliverables.
    - Submit a comprehensive internship report.

Performance Evaluation

- Weekly check-ins to review progress and resolve challenges.
- Midpoint evaluation (150 or 300 hours) focusing on:
    - Skills development.
    - Problem-solving ability.
    - Quality of deliverables.
- Final evaluation with a certificate of completion.

Tools and Platforms

- **Essential:** Microsoft Excel, SQL, Google Sheets.
- **Advanced:** Tableau/Power BI, Python/R (optional but encouraged).

Intern Name: _____

Evaluation Date: _____

Total Hours Completed: _____

Evaluator Name and Signature: _____

Milestone Evaluation Matrix

Evaluation Criteria	Weight	Excellent (5)	Good (4)	Satisfactory (3)	Needs Improvement (2)	Poor (1)	Score
Technical Skills	30%	Consistently exceeds expectations in using tools/software; solves complex tasks independently.	Proficient in tools/software; requires minimal supervision.	Adequate skills; meets most expectations.	Struggles with basic tasks; requires frequent guidance.	Lacks basic technical skills; unable to complete tasks.	
Data Analysis	20%	Provides deep insights; demonstrates advanced analytical thinking.	Analyzes data effectively; produces actionable insights.	Basic analysis with some insights.	Limited analytical ability; needs improvement.	Unable to perform data analysis.	
Problem-Solving	15%	Consistently identifies innovative solutions to challenges.	Solves most problems effectively; shows initiative.	Solves problems with occasional guidance.	Struggles to address challenges.	Unable to solve basic problems.	
Communication Skills	10%	Clearly communicates insights to technical	Communicates effectively;	Basic communication;	Struggles to communicate	Unable to explain data or findings.	

Evaluation Criteria	Weight	Excellent (5)	Good (4)	Satisfactory (3)	Needs Improvement (2)	Poor (1)	Score
		and non-technical audiences.	some room for improvement.	can explain key points.	findings clearly.		
Time Management	10%	Consistently meets or exceeds deadlines; highly organized.	Manages time well; meets deadlines regularly.	Occasionally meets deadlines; needs improvement.	Frequently misses deadlines; lacks organization.	Unable to manage time effectively.	
Team Collaboration	10%	Exceptional team player; positively influences the team.	Works well with others; contributes consistently.	Participates but lacks engagement.	Rarely engages with the team; needs improvement.	Avoids collaboration; hinders team progress.	
Initiative and Learning	5%	Actively seeks learning opportunities; applies knowledge effectively.	Shows interest in learning; applies some new skills.	Basic effort in learning new skills.	Shows little interest in learning.	Avoids learning opportunities.	

Total Score: _____/100

Evaluation Instructions

1. **Evaluator:** Supervisor or mentor.
2. **Frequency:**
   - **Midpoint Evaluation:** After 150 hours (for 300-hour internship) or 300 hours (for 600-hour internship).
   - **Final Evaluation:** At the end of the internship.
3. **Scoring:**
   - Assign scores (1-5) for each criterion.
   - Multiply the score by the respective weight percentage.
   - Calculate the total score.

Score Calculation

- **Total Weighted Score = Σ (Score × Weight)**
  Example: If an intern scores 4 in Technical Skills, multiply it by 30% (4 × 30 = 120). Repeat for all criteria and sum up the results.

Weighted Score	Rating
450-500	Outstanding
400-449	Excellent
350-399	Good
300-349	Satisfactory
Below 300	Needs Improvement

Additional Feedback Section *(Include qualitative feedback to give the intern actionable advice for improvement.)*

Strengths: *(What the intern did exceptionally well.)*

Areas for Improvement: *(Where the intern can focus on improving.)*

General Comments: *(Additional notes on the intern's performance.)*

Weekly Evaluation Matrix

Evaluation Criteria	Weight	Excellent (5)	Good (4)	Satisfactory (3)	Needs Improvement (2)	Poor (1)	Score
Task Completion	30%	All assigned tasks are completed ahead of schedule with high quality.	Tasks are completed on time with minor errors.	Tasks are mostly completed but require corrections.	Some tasks are incomplete or delayed.	Tasks are consistently late or incomplete.	
Quality of Work	20%	Delivers outstanding and error-free work.	Work is accurate with minor issues.	Acceptable quality with occasional errors.	Work has frequent errors; needs revision.	Work is unacceptable or incomplete.	
Learning and Adaptability	15%	Quickly learns new tools/skills and applies them effectively.	Demonstrates good adaptability to new challenges.	Learns with some guidance but shows progress.	Struggles to adapt; requires extensive guidance.	Does not show willingness or ability to learn.	
Communication Skills	10%	Communicates proactively and effectively with clarity.	Communicates well but occasionally needs prompting.	Basic communication; responds adequately.	Limited communication; requires frequent follow-ups.	Does not communicate effectively.	
Time Management	10%	Always punctual and highly organized;	Generally punctual; manages time well.	Sometimes punctual; some improvement needed.	Often late or disorganized.	Poor time management; misses deadlines.	

Evaluation Criteria	Weight	Excellent (5)	Good (4)	Satisfactory (3)	Needs Improvement (2)	Poor (1)	Score
		prioritizes effectively.					
Teamwork and Collaboration	10%	Actively contributes to team goals; highly supportive.	Works well with the team; good collaborator.	Participates minimally in team activities.	Rarely engages with the team.	Avoids collaboration; hinders team performance.	
Initiative and Ownership	5%	Proactively seeks tasks and takes full responsibility.	Shows initiative in some tasks; accepts ownership.	Completes tasks when assigned but lacks initiative.	Rarely takes initiative; avoids responsibility.	Avoids tasks and accountability.	

Total Score: _____/100

Additional Weekly Feedback *(Add a qualitative feedback section to provide actionable advice)*

.

What Went Well This Week: *(Highlight specific accomplishments or strengths.)*

Challenges Faced: *(Identify areas where the intern struggled.)*

Goals for Next Week: *(Set clear, achievable targets for improvement or tasks to focus on.)*
