

WEEKLY JOURNAL ACTIVITIES

INCLUSIVE DATE/S	NATURE OF ACTIVITY	CONTRIBUTION OF THE TRAINEE	NUMBER OF HOURS
WEEK 6			
March 23	- Feature development and system updates.	Worked on adding and improving system features, with focus on the Knowledge Base module to make it more useful and user-friendly.	8 Hours
March 24	- Module refinement and preparation.	Continued refining different system modules and prepared them for upcoming testing and further improvements.	8 Hours
March 25	- Debugging and system presentation	Helped identify and fix system issues, assisted during the demo, and made adjustments to improve the ticketing process flow.	8 Hours
March 26	- Interface enhancement and workflow changes.	Improved the layout and interface of the system, while adjusting the workflow to make tasks easier and more organized.	8 Hours
March 27	- System polishing and error fixing	Focused on resolving errors, enhancing features, and improving the overall interface and ticket handling process. Also assisted in fixing the Zoho email notification issue.	8 Hours

REFLECTION

DATE: March 23 - 27 , 2026

WEEK 6

During this week of my OJT, I gained more hands-on experience working in an actual system development environment. I was able to review the ticketing system and observe how the process of creating, assigning, and managing tickets is handled. This gave me a clearer understanding of how the system supports and organizes user requests.

I also had the opportunity to check the system for possible issues and assist in resolving minor bugs. Through this, I was able to further practice my coding and debugging skills. I realized the importance of careful testing to ensure that the system functions properly and efficiently.

Overall, this week helped me enhance my technical skills and deepen my understanding of how systems are maintained and improved in a real-world setting. It also allowed me to apply the knowledge I have learned in school to actual tasks during my training.
