PUP PROFILE

History

The Polytechnic University of the Philippines (PUP) is a government educational institution governed by Republic Act Number 8292 known as the Higher Education Modernization Act of 1997, and its Implementing Rules and Regulations contained in the Commission on Higher Education Memorandum Circular No. 4, series 1997. PUP is one of the country's highly competent educational institutions. The PUP Community is composed of the Board of Regents, University Officials, Administrative and Academic Personnel, Students, various Organizations, and the Alumni.

Governance of PUP is vested upon the Board of Regents, which exercises policy-making functions to carry out the mission and programs of the University by virtue of RA 8292 granted by the Commission on Higher Education. The University is administered by an appointed President by virtue of RA 8292 and is assisted by an Executive Vice President and the Vice Presidents for Academic Affairs, Student Services, Administration, Research, Extension and Development, and Finance.

This institution started as the Manila Business School (MBS), founded in October 19, 1904 as part of the city school system under the superintendence of C.A. O'Reilley, which responds to the demand for training personnel for government service and the felt need to provide skills essential for private employment. In 1908, it was renamed as Philippine School of Commerce (PSC) and merged with the Philippine Normal School (PNS) in 1933 to 1946. By virtue of Republic Act 778, the PSC was again changed to Philippine College of Commerce (PCC) in 1952. Subsequently, the Philippine College of Commerce (PCC) was converted into a chartered state university, now known as the Polytechnic University of the Philippines by virtue of Presidential Decree Number 1341 issued by the President of the Philippines on April 1, 1978.

THE COUNTRY’S 1st POLYTECHNICU

PUP is a public, non-sectarian, non-profit institution of higher learning primarily tasked with harnessing the tremendous human resources potential of the nation by improving the physical, intellectual and material well-being of the individual through higher occupational, technical and professional instruction and training in the applied arts and sciences related to the fields of commerce, business administration, and technology.

With more than twenty campuses serving more than 80,000 students, the Polytechnic University of the Philippines is the largest university in terms of student population. The main campus is named after a national hero, Apolinario Mabini, and is located in Sta. Mesa, Manila - in the middle of a busy metropolitan. But despite of this, the environment within its perimeter is a place conducive of learning.

Majority of the students belong to the economically challenged level of society. It is the University's commitment to give qualified and talented students access to quality and responsive education to aid them in the achievement of their dreams and improve their lives. Being a well-educated and skilled individual, they will not only become job seekers but job creators as well, a force of knowledge workers and entrepreneurs.

Scholars of the Nation (*Iskolar ng Bayan*), that is what we call our students because the Philippine Government and other non-government institutions subsidize their tuition and other fees. More than a hundred of the student population are foreigners from China, Singapore, Indonesia, Cambodia, Myanmar, Tanzania, Nigeria, and Ghana. They are enrolled in business, language, statistics, communication, and education courses in the undergraduate and graduate levels. Students from Korea regularly visit PUP in summer to take up Intensive English courses.

The Polytechnic University of the Philippines takes pride in its capability to accommodate the student needs because it:

- Has more than 20 campuses to make education accessible to everyone;

PUP A. Mabini Campus, Anonas Street, Sta. Mesa, Manila 1016

Trunk Line: 335-1787 or 335-1777

THE COUNTRY'S 1st POLYTECHNICU

- Offers a wide range of courses: doctorate, master's, and bachelor's degrees as well as technology courses available through traditional and open, flexible or distance learning;
- Pioneered the ladderized system and the accreditation and equivalency system through the Expanded Tertiary Education Equivalency and Accreditation Program (ETEEAP) and the Nontraditional System Program (NTSP);
- Maintains an average size of 45-50 students per class;
- Offers an extensive selection of educational choices through more than 60 undergraduate and graduate programs;
- Schedules weekend and evening classes;
- Brings the resources and programs of PUP not only to full-time students but also to part-time and adult learners; and
- Provides a long list of extension services for the community and the country.

The commitment of its leaders, faculty, staff, students, alumni and friends has formed the cornerstone of this University that has exceeded expectations with every generation of the graduates it has produced since its establishment.

Today, PUP is relishing its successes and its students are enjoying unprecedented academic opportunities, an enhanced campus environment, upgraded colleges, state-of-the-art technology, and nationally and internationally recognized programs.

PUP celebrated its centenary last October 2004. It has gone far from what it was more than a century ago. This is mainly due to the support given by the government and the PUP Community and its benefactors. With the combined effort, PUP will continue to be a partner in nation-building and in poverty alleviation for the marginalized sector of society with quality, responsive, and relevant education as a tool.

Vision

THE COUNTRY'S 1st POLYTECHNICU

Clearing the paths while laying new foundations to transform the Polytechnic University of the Philippines into an epistemic community.

Mission

Ensuring inclusive and equitable quality education and promoting lifelong learning opportunities through a re-engineered polytechnic university by committing to:

1. provide democratized access to educational opportunities for the holistic development of individuals with global perspective.
2. offer industry-oriented curricula that produce highly-skilled professionals with managerial and technical capabilities and a strong sense of public service for nation building.
3. embed a culture of research and innovation.
4. continuously develop faculty and employees with the highest level of professionalism.
5. engage public and private institutions and other stakeholders for the attainment of social development goal.
6. establish a strong presence and impact in the international academic community.

Philosophy

As a state university, the Polytechnic University of the Philippines believes that:

- Education is an instrument for the development of the citizenry and for the enhancement of nation building; and
- That meaningful growth and transformation of the country are best achieved in an atmosphere of brotherhood, peace, freedom, justice and nationalist-oriented education imbued with the spirit of humanist internationalism.

Polytechnic University of the Philippines – Biñan Campus

Polytechnic University of the Philippines – Biñan Laguna Campus consistent to its mission of making city of Biñan into premier city with a tagline of 'Unlad Biñan!', former Mayor Marlyn B. Alonte-Naguiat now a Congresswoman of Lone District of Biñan City entered into agreement with Polytechnic University of the Philippines (PUP) through a Memorandum of Agreement (MoA) dated September 15, 2009 to establish a PUP campus in the city of Biñan. Through this partnership, quality education become accessible to every Biñanense, thus, respond to the needs of the largest estates and export processing zones located in the city. Equipped with (13) classrooms, (3) laboratory rooms, an audio-visual room, a student-center, an air-conditioned library and an elevator, PUP-Biñan Campus presently offers (8) Bachelor Degree and (2) Diploma Courses.

(Source: PUP-Biñan)

Rationale of the On-The-Job Training

On-The-Job Training also called practicum of internship depending on the nature of the academic program, is a course requirement for baccalaureate degree which provides as opportunity among students to apply the theories, principles and ideas learned in the academic environment to actual work settings under the guidance and supervision of their skills and prepare them for the “world of work” after collage. Attainment of the On-The-Job Training program objectives ensures the readiness of the graduates to face the challenges of the industry. Hence, vital as it is, OJT should be

Leads Agricultural Products Corp. (LAPC)

Since 1997, **Leads Agricultural Products Corp. (LAPC)** has been the partner of Filipino farmers in sustaining their livelihood. **For almost three decades now**, Leads Agri has been nurturing the vision of a developed society rooted in an agricultural system that thrives amid calamities and global pandemics. By collaborating with groups that share the same goal in uplifting the Philippine agricultural sector, the company strives to overcome our unrealized potential in industries connected to it.

The year 2020 saw us breach the 2-billion peso sale mark. This, with the company starting small and initially overlooked by the industry and that barely hits their growth targets, is benchmark of progress. We now have more than 500 employees serving over a thousand agricultural dealers and distributors, which equip millions of Filipino farmers with the right tools and technology nationwide.

With these strong advantages under our wing, the Leads Group of Companies now has ten subsidiaries that foster the same principles.

With an experience portfolio that covers multiple industries, we continue to expand a dream started by Filipinos for the Filipinos.

THE COUNTRY'S 1st POLYTECHNICU

LEADS Mission

Leads Agri is committed to provide a broad portfolio of science-based and cost effective agricultural solutions to Filipino farmers through various channels in all agricultural areas in the Philippines through cutting edge and innovative technology. We strive to improve market reach by empowering the farming communities and other stakeholders in the agriculture value chain to produce sustainable, accessible, and affordable food for every Filipino family.

We engage every individual with dignity and utmost respect regardless of societal status. **"Paggawa ayon sa patnubay ng pananampalataya at malasakit"**

LEADS Vision

As the leading company that provides future-proof farm productivity solutions and services, we envision to be a pillar of hope and assume a pivotal role towards innovating the country's agricultural value chain for the welfare of the Filipino farmers.

Company Tagline

"Masaganang Ani, Masaganang Buhay"

Core Values

- **Service:** Commitment to understanding and meeting the needs of Filipino farmer s.
- **Innovation:** Pursuing high-quality and innovative products to improve agricultural practices.
- **Community:** Engaging in local initiatives and supporting the community projects to uplift lives.

- **Ethical Business Practices:** Adhering to ethical standards and market-driven initiatives to enhance customer satisfaction.

These values guide the company's operations and its approach to serving the agricultural sector in the Philippines.

**Times Higher Education
Impact Rankings 2024
DEBUTS AT 1501+**

Date: Feb 18 - Feb 19, 2026

WEEK 1

During my first week of OJT, I was introduced to the company, its work environment, and my assigned role. The orientation and role briefing helped me clearly understand my responsibilities and the expectations given to me as a trainee. I also familiarized myself with Zoho and Desk365, which gave me a better understanding of how ticketing systems work.

Through project meetings and system planning sessions, I actively participated in discussions and collaborated with my co-developer in designing the ticketing system. Overall, this week helped me adjust to the workplace environment while improving both my communication and technical skills.

Date: Feb 23 – Feb 27, 2026

WEEK 2

During Week 2 of my OJT, I focused more on the actual development of the ticketing system. I worked closely with my co-developer in coding, enhancing system features, and fixing errors. I also conducted additional research and consulted with my team to better understand the system workflow before and during implementation.

PUP A. Mabini Campus, Anonas Street, Sta. Mesa, Manila 1016

THE COUNTRY’S 1st POLYTECHNICU

We translated our plans into actual coding tasks and continuously improved the system based on team discussions and supervisor feedback. We also prepared for and participated in the project presentation, where we demonstrated the current progress of the system. This week helped me improve my coding, problem-solving, and teamwork skills in a real-world working environment.

Date: March 2 – March 6, 2026

WEEK 3

During this week, I worked on developing and improving the Helpdesk Ticket important activities this week was presenting the system to the IT team. During the meeting, we demonstrated the system's functionality and received valuable feedback and suggestions for further improvements. This experience helped me understand the importance of collaboration and communication when developing systems for real organizational use.

Overall, this week helped me improve my technical skills in web development and strengthened my problem-solving abilities while working on system improvements.ing System. I helped implement several system features such as ticket creation, department assignment, and user interface enhancements. I also performed testing and debugging to ensure that tickets are correctly routed to the appropriate departments and companies.

Date: March 9 – March 13, 2026

WEEK 4

PUP A. Mabini Campus, Anonas Street, Sta. Mesa, Manila 1016

Trunk Line: 335-1787 or 335-1777

Website: www.pup.edu.ph | Inquiries: <https://bit.ly/PUPSINTA>

THE COUNTRY'S 1st POLYTECHNICU

During this week of my OJT, I was able to gain more experience in working with an actual system development environment. I had the chance to review the ticketing system and observe how the workflow of creating, assigning, and managing tickets works in the system. This helped me understand how the system is used to handle requests.

I also learned how to check the system for possible errors and assist in fixing some minor bugs. Through these tasks, I was able to practice my coding and debugging skills. I also realized how important it is to carefully test the system to make sure everything is working properly.

Overall, this week helped me improve my technical skills and gave me a better understanding of how systems are maintained and improved in a real working environment. It also allowed me to apply some of the things I learned in school to actual tasks during my training.

Date: March 16 – March 19, 2026

WEEK 5

During this week, I gained more experience in system development by fixing bugs, improving the ticket flow, and enhancing the system’s UI. I learned the importance of testing in identifying errors and making sure the system functions properly. I also realized that feedback from supervisors is important, as it helps guide what parts of the system need to be revised or improved.

Through this experience, I was able to improve my problem-solving and debugging skills, as well as my ability to collaborate with a team. Overall, this week helped me become more confident in developing and refining a system based on testing and feedback.
